Material Safety Data Sheet

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION		
Common/Trade Name: Buprenorphine Hydrochloride  Sublingual Tablets		
Chemical Name: 17-(cyclopropylmethyl)- α -(1,1-dimethylethyl)-4, 5-epoxy-18, 19-dihydro-3-hydroxy-6-methoxy- α -methyl-6,14-ethenomorphinan-7-methanol, hydrochloride [5 α , 7 α (S)]-		
Synonyms: None		
Molecular Formula: C ₂₉ H ₄₁ NO ₄ HCl		
Molecular Weight: 504.10		
CAS No: 53152-21-9		
Chemical Family: Partial opioid analgesic		
Product Use: For the treatment of opioid dependency		
Manufacturer's Name: Boehringer Ingelheim Roxane Inc.		
Address: 1809 Wilson Road Columbus, Ohio 43228		
2. COMPOSITION / INFORMATION ON INGREDIENTS		
Composition	CAS#	Exposure Limit
Buprenorphine Hydrochloride (active ingredient)	53152-21-9	None established
<i>REFER to PHYSICIAN'S DESK REFERENCE for common components present as <1%</i>		
3. HAZARDS IDENTIFICATION		
Emergency Overview	Physical State: Sublingual tablets The 2 mg tablets are white with "54 775" embossed on one side and blank on the other. The 8 mg tablets are white with "54 411" embossed on one side and blank on the other. Odor: No data available WARNING! Buprenorphine Hydrochloride is a partial opioid analgesic. May be harmful if swallowed. Accidental ingestion of large amounts may be harmful.	
Primary Route(s) of Entry	Ingestion	
Potential Health Effects:	Inhalation: Not expected to be an inhalation hazard in final pharmaceutical form. Eye Contact: Not expected to be a hazard to the eye in final pharmaceutical form. Skin Contact: Not expected to be a hazard to the skin. Can cause hypersensitive reactions resulting in rash, redness, itching and inflammation. Ingestion: May be harmful if ingested. Can cause headache, nausea, insomnia, respiratory depression and pain.	
Toxicity Data:	See Section 11	
Effects of Overexposure:	Overdosing on this medication can cause severe respiratory depression, pinpoint pupils, sedation, hypotension and even death.	
Target Organs:	Central nervous system	
4. FIRST AID MEASURES		

Eye Exposure	Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses if worn. Get medical attention if symptoms persist.				
Skin Exposure	Wash with soap and water. Get medical attention if symptoms occur.				
Ingestion	Call a physician or poison control center immediately.				
Inhalation	Should not pose a hazard in the final form. If breathing is difficult, move to fresh air. Get medical attention immediately.				
5. FIRE AND EXPLOSION HAZARDS					
Flammability	Lower: N/A		Upper: N/A		
Flash Point	Not Applicable				
Extinguishing Media	Use water spray, dry chemical, carbon dioxide or material appropriate for fire in surrounding area				
Special Fire Fighting Procedures	Wear full protective clothing and self-contained breathing apparatus.				
Unusual Fire/Explosion Hazards	Not Applicable				
Hazardous Combustion Products	Carbon dioxide, carbon monoxide, oxides of nitrogen, hydrogen chloride				
6. ACCIDENTAL RELEASE INFORMATION					
STEPS TO BE TAKEN IF SIGNIFICANT QUANTITIES OF PRODUCT IS SPILLED: Use appropriate personal protective equipment (see Section 8). Sweep up and containerize spill material in a compatible container. Dispose according to applicable regulations. Incineration of the waste at an approved facility is recommended.					
7. PRECAUTIONS FOR SAFE HANDLING AND USE					
Precautions Handling Significant Quantities of Product:	Observe good industrial hygiene practices.				
Storage	Store at 15° to 30°C (59° to 86°F). Keep container closed tightly. Protect from light and moisture. Store away from foodstuffs.				
8. CONTROL MEASURES AND PERSONAL PROTECTIVE EQUIPMENT					
Exposure Limits	None				
Engineering Controls	Not required when handling tablets or containers. Ventilation should be matched to conditions.				
Respiratory Protection	Not required when handling tablets or containers. NIOSH/MSHA approved respirators for protection should be used if respirators are found to be necessary. Ventilation should be matched to conditions.				
Personal Protection	Not required when handling tablets. If containers are compromised or exposure is likely wear: Goggles, Lab Coat, Gloves				
Recommended Facilities	Eye wash, washing facilities				
9. PHYSICAL / CHEMICAL CHARACTERISTICS					
Appearance	White tablets	Melting point	Not available	Solubility in water	Not available
Odor	Not available	Boiling point	Not available	Specific Gravity	Not available
Taste	Not available	Vapor Pressure	Not available	Flashpoint	Not available
pH	Not available	Density	Not available	Flammability Limits	Not available
10. STABILITY AND REACTIVITY DATA					

Stability	Stable
Incompatibility	None known
Hazardous Decomposition	Oxides of carbon, oxides of nitrogen, hydrogen chloride
Conditions to Avoid	Excessive heat, light
Hazardous Polymerization	Will not occur.
11. TOXICOLOGICAL INFORMATION	
<p>Acute Toxicity:</p> <p>Active Ingredient: Oral LD50 (rat): >1000 mg/kg Oral LD50 (mouse): 800 mg/kg</p> <p>Carcinogenicity: Not listed as a carcinogen by NTP, IARC Monographs or OSHA.</p>	
12. ENVIRONMENTAL IMPACT INFORMATION	
No information is currently available on the environmental impact of this product.	
13. DISPOSAL INFORMATION	
<p>Waste Disposal Considerations: Drug Enforcement Administration controlled substances must be destroyed following DEA Guidelines for witnessed destruction of the product beyond reclamation. Disposal by incineration is recommended.</p> <p>At home: Discard away from children's reach.</p>	
14. TRANSPORTATION INFORMATION	
<p>This product is authorized as exempt, therefore is not subject to regulations for the safe transport of hazardous chemicals. For more information, please contact a Boehringer-Ingelheim Roxane, Inc. representative.</p> <p>DOT: Not Regulated TDG: Not Regulated IATA: Not Regulated IMDG: Not Regulated</p>	
15. REGULATORY INFORMATION	
<p>DEA: Buprenorphine Hydrochloride  is a DEA Schedule III Controlled Substance.</p> <p>FDA: Buprenorphine Hydrochloride  is an approved prescription medication.</p> <p>Inventory Status: This material is not listed on the US TSCA Inventory. Therefore, it can only be used for TSCA exempt purposes such as R&D or drug use. This material is not listed on the DSL Inventory but is exempt.</p>	
16. OTHER DATA	
<p>ABBREVIATIONS: N/A – not applicable</p> <p>Prepared by: Boehringer Ingelheim Roxane, Inc.</p> <p>References:</p> <ol style="list-style-type: none"> 1.
